

Volunteer Information Specialists
2014 – 2015
Chairman: Nancy Beyer

The Volunteer Information Specialists committee is all about using our computers to promote the objectives of the society. Our chapter has embraced technology, using both email and our website as primary means of communicating with our members. We also have a closed Facebook group for sharing information with members.

Luella Stilley produced an outstanding monthly newsletter that is chock full of information and committee reports.

Regent Connie McGee prepared fliers for the American History contests for distribution to local schools. She prepared certificates to recognize Vietnam-era veterans at our November program.

Jane Robertson enters hours for Celebrate America! for many members.

Louisa Durkin and her team use computers to assist prospective members with their lineage research and membership applications.

Waneva Maymon handles the huge task of preparing our yearbooks. She also uses her computer to prepare our chapter budget and keep track of income and expenses.

Nancy Beyer presented a PowerPoint program at our November meeting and shared the same program with the Wild Horse Trail Chapter.
