

WOMEN'S ISSUES

DAR Women's Issues Chairman Luella Stilley

Women's Issues were communicated to all of the Lt. George Farragut Chapter members via the Chapter Newsletter. We chose this vehicle in order to reach all of our members and to free up the time during our meetings. Women's Issues are divided into three sections or categories; (1) Health Issues, (2) Career Issues, and (3) Family Issues.

Health Issues areas covered were: winter safety, heart health, skin care and skin cancer identification, insect stings, breast cancer, eye health; Career Issues: college education, career education; and Family Issues: what health facility is prudent for illness/emergency, family caregiving, blood donation, family relationships.
